

Raising Private Equity Financing for our Clients.

For a company that desires capital for acquisitions, recapitalization or growth, Mercantile Mergers & Acquisitions Corporation has in-depth knowledge of the many sources and providers of Private Equity and Debt required to complete a successful financing.

- For a management team whose goal is to acquire the business it has been operating, Mercantile has helped many management teams identify the best possible equity and debt partners.

- Many investments require capital from the Private Equity community. There are over 3,000 active Private Equity firms in Canada and the United States.

Mercantile Mergers & Acquisitions Corporation commits senior level attention throughout the capital raising process and strives to minimize the time requirement of management which allows for their continued focus on running the business. Numerous factors, including timing, positioning, strategy and execution, will drive the ultimate success of the process, which is why Mercantile Mergers & Acquisitions Corporation tailors each process to suit the shareholders and management. Generally, our processes include three stages:
